

MICHAL KOWALEWSKI

Engineer with a successful entrepreneurial career, I am interested in entering an IT environment where I can use my logic and problem solving skills. Fast-learner, passionate about programming and always seeking the room for improvement.

Currently, I am looking for a job as Junior Backend / Fullstack Developer where I can learn new technologies and use my experience to contribute to company's success.

EXPERIENCE

★ 07.2018 - **Ubiquum Code Academy**, Berlin, Germany - **Fullstack Mentor**

Teaching and assisting, code reviews, programming tasks preparation. Two fullstack programs - HTML/CSS/JS + VueJS + Java8 and HTML/CSS/JS + MERN.

★ 02.2018 - 07.2018 - **Ubiquum Code Academy**, Berlin, Germany - **Fullstack Developer Trainee**

Intensive 5-month, 800h, full-time, on-site coding bootcamp structured as an Agile work environment, using SCRUM framework and "Learn By Doing" methodology. Focused on: Java 8, SpringBoot, JavaScript, VueJS, jQuery, HTML, CSS.

★ 10.2007 - 08.2015 **Mobino**, Poznan, Poland - **Founder** - www.minigolf.org.pl

Minigolf: designing, production, construction and counselling Taking responsibility for the whole process of delivering products to customers. From the first contact to finishing the realisation and after sell service. Without experience we found a niche on the market, answered on the demand and built the company from the scratch to the most significant one in Poland in that field. During 8 years we constructed more than 80 facilities in the whole country, in various technologies, often developed by us. I was also responsible for building websites and implementing Google AdWords campaigns. Moreover, I developed a few side projects:

Segway: rent, preparation/coordination of advertising campaigns

Cargobikes: rent and sell

★ 04.2006 - 04.2008 - **Okienko Kasowe**, Poznan, Poland - **IT Specialist**

Help desk, IT service, computer networks

EDUCATION & COURSES

★ 10.2003 - 06.2008 - **Poznan University of Technology**, Poznan, Poland

MS: Management (Faculty of Computing and Management)

★ 09.1998 - 06.2003 - **Technical High School of Communication Technology and Electronics**

Electronic technician (major in Computer Systems and Networks)

★ **Important courses** (online and on-site): Programmieren lernen mit Java - Intensivkurs (2017) | MERN Stack

Front To Back: Full Stack React, Redux & Node.js (2018) | Understanding TypeScript (2019)

ABILITIES

★ Logical thinking, **Problem solving** approach and analytical skills - years of experience in design, planing and coordinating projects.

★ Good **communication skills** - working with lots of customers (B2C, B2B).

★ **Team player** - working in as well as supervising different multidisciplinary teams.

★ **Fast learner** - searching for new solutions and using adaptive approach.

★ **Project management** - analysis of needs, budgeting, negotiations, completing team, planing and supervising realisation.
